Plaintiff,

THOMAS G. BRUTON
CLERK, U.S. DISTRICT COURT

Case No. 1:21-cv-05014

v.

Hon. M. David Weisman

THOMAS J. DART,

Plaintiff's Response To Defendant Sheriff's 2nd
Supplemental Response To Plaintiff Michael C.

Mayo's First set OF Request For Production #7
And Plaintiffs Amended Supplemental Requests for
Production #7.

NOW COMES Plaintiff, MICHAEL C. MAYO
and states as follows:

Plaintiff appreciates defendants attempts to answer
Plaintiff Request for Production #7. Although
the uniform exchange and linen exchange were
playued^{with} issues related to inventory during the months
of March-June 2020. Plaintiff never requested the
production of these documents. Plaintiff explained

in his deposition with defendants counsel, his supplemental Request for Production, with attached example and during several status meetings both on the phone and by zoom, that his request was for the laundry logs for personal items (Boxer/Brief, tee shirts, socks, thermal tops and bottoms, wash/face towels and shower towels). Defendants have only submitted two weeks of personal laundry logs for 3G RTU (9/2019 and 10/2019) and these logs were before the on set of COVID-19 in Jan 2020.

Plaintiffs argument is that defendant TOM Dart stopped personal laundry during March and April 2020 on 3G RTU, ~~resulting~~ and prohibited inmates from washing there own cloths (Policy 903.2), resulting in an unsanitary living environment for the medically vulnerable such as plaintiff.

Defendants have attempted to present personal laundry weight logs from March 2020, April 2020 (May 2020 is missing) and June 2020. These logs only say RTU, not RTU 3G where plaintiff was housed. Division 8 RTU consist of 21 tiers.

In March 2020 there were about 538 inmates in RTU. In April 2020 there were about 523 inmates in RTU. In June 2020 there were about 565 inmates in RTU. The net weights of laundry defendants represent in their Personal Laundry Weight Logs

range from 33 pounds to 150 pounds of personal laundry on any given week. These weights do not represent tier 3G RTU and surely do not represent an entire division of RTU with more than 500 inmates. Defendants have failed to show that personal laundry was being done twice a week on tier 3G RTU during March-June 2020 as required by Procedure 903.3(d)^{#4}. Further, defendants claim to have included Daily Cleaning and Disinfection Policies, Enhanced Cleaning and Sanitation Logs for Mar-Apr 2020, these documents were not included in the documents sent to plaintiff. Also, the attached policy 903 has a copyright date of 02/01/2021, which is a year after COVID-19 started. Finally, plaintiff ask that all future Correspondence be labeled, "Legal Mail."

Plaintiff's Amended Supplemental Request for Production #7.

7. Provide evidence that personal laundry (Boxer/Brief, tee shirts, socks, thermal tops and bottoms, wash/face towels and shower towels) were being cleaned twice a week in division 8 RTU tier 3G during the months of March-June 2020 in accordance with Procedure 903.3 of the Cook County DOC Procedures Manual. (any logs or records)
